

Information Directly from Virginia Tech Regarding Current COVID Protocols:

Policies are subject to change and will continue to be communicated to students and parents.

- Verification of a negative COVID-19 test will be required to be submitted to the YCC Camp Director within 72 hours (3 days) of arrival to Virginia Tech.
- Appropriate facial coverings are required when outside of assigned residence hall floor(s). Guests will be expected to follow masking requirements applicable to space they are occupying at that time.
- Facial coverings will be required when interacting with other groups on campus. Masking is not required while eating/drinking in the dining center; however while moving within those areas, guests must use facial coverings.
- Dining cleaning protocols currently in place will continue into the summer and would be adjusted to align with current VDH and CDC recommendations.
- Housekeeping staff will be cleaning restrooms and high touchpoint areas such as elevator buttons, water bottle filling stations, and door handles frequently.
- Before, during, and after each conference, housekeeping staff will provide cleaning of bathrooms, hallways, lobbies, lounges, and other high traffic/touchpoint areas within the residence halls.
- Hand sanitizing stations have been placed near all residence hall entries and elevators.

More specifics will be forthcoming to campers and parents. Thank you for your understanding and respect of Virginia Tech's policies as we work to ensure this is a safe and enjoyable camp experience for everyone involved! Please reach out to maura.christian@vaswcd.org with any questions at this time.
